MEMORANDUM TO:

Chairman, TSCS

25X1

FROM:

Chairman, ACWG

25X1

SUBJECT: 1983 Annual Interagency Training Center Report

THE INTERAGENCY TRAINING CENTER IS HEALTHY!! Thank you's and a job well done should be given to the entire Intelligence Community and especially the ITC's Staff and Executive Agency for identifying the ITC's needs and resolving them in an outstanding manner.

MISSION

The mission of the ITC is twofold: (a) to provide Technical Surveillance Countermeasures (TSCM) Agents with updated knowledge on all current state-of-the-art procedures, techniques, and equipments utilized in the detection of clandestine or covert surveillance devices; and (b) to provide basic TSCM training for new personnel entering into the field of TSCM activities.

Comments. The ITC is the only interagency training facility for the U.S. Intelligence Community that provides TSCM agents training. Under the present staffing, the ITC has been forced to dedicate a large portion of the staff's time to accomplishing part (b) of this mission. Projected increases of TSCM agents within the Intelligence Community, and the continuous turnover of military and other agencies' TSCM agents, will increase the burden of the ITC in providing basic TSCM training. In future years the amount of advanced training needed will also be increased due to this projected expansion.
